

KING'S

The Spring Issue | 2023-2024

Music

Jazz Nite this year was a great success with an audience of 350, which is our biggest yet.

The evening featured the school's own regular groups: Big Band, Knotso's, Soul Band and Brass Ensemble. One of the highlights of Jazz Nite are the many excellent student led ensembles, which give students the opportunity to get together with others, find music they like and show us what they can do. The results are always outstanding.

The performances during the night ranged from Big Band classics and jazz standards such as 'Oh Lady Be Good', 'Such Sweet Thunder' by Duke Ellington and 'That's Life' to Ray Charles' 'Hallelujah I Love Her So', Madness' 'Baggy Trousers' and Mark Ronson's 'Uptown Funk'.

The boys were a credit to the school and the Music Department, showcasing their incredible talent and the plethora of genres of music the boys not only study, but clearly enjoy. The dedication of all the staff and parent helpers as well as the students is astonishing. The church provided the ideal venue for such a showcase event and a great time was had by all.

Dear Students, Parents and Carers,
It seems like only a moment ago that I was presenting the last newsletter. The term seems to have flown by and it is noticeable that there is sunlight when the boys arrive in the morning and still daylight when they leave; we are now over half way through the academic year.

The Year 11 and Year 13 students are in the final preparations for their examinations. The Year 13 students are busying themselves with two weeks of mock examinations. This has come at the end of a short but packed term.

The Jazz Nite in St Wulframs' Church was a wonderful celebration of music that started the term off. It was wonderful to see students, and staff, having so much fun while entertaining the largest audience to-date.

It is great to report that work has finally started on the Old School ceiling and we hope to have the iconic building back in use next academic year.

Mr Whales, and his team have been working hard finishing the last of the UCAS applications; with more students than ever before completing a university application.

We also had the fantastic news about the early entrance students, where all previous records have been broken with 10 students receiving conditional offers to either Cambridge or Oxford.

This week the ski trip headed off, and we can not wait to hear about thier experiences and successes in the snow of Austria.

As the lighter nights arrive we have a lot of students who already ride their bicycle to school and others that will soon start. Please can I implore students to wear helmets when on their bicycles. The school is in a very busy area and we want all of them to stay safe.

There have been a great number of trips and visits this term and the Year 12 English Language and Literature students finished the term off with a trip to London's intimate, candlelit Sam Wanamaker Playhouse for an 'inspired' and 'profound' take on Shakespeare's blistering tragedy.

Thank you for your support and wishing everyone an enjoyable vacation.

PTFA

Happy New Year from the PTFA

The 'Parents, Teachers, Friends Association' actively supports the school and the staff by organising events to raise funds for the school community, specifically the 'fun stuff' which wouldn't otherwise be easily funded. Items that the PTFA funds have helped fund include:

- Outdoor table-tennis tables
- Languages Competition Entry Feeds
- The Library
- Warhammer club for additional kit
- Chess Club for clocks and chess sets
- Benches for Year 7s in Head Master's Garden

Every parent/carer is automatically a member of the PTFA and is welcome to attend any or all of the meetings and contribute to the decision-making process. All members of the PTFA are volunteers with Committee members volunteering for the roles and elected at the AGM. Without being a Committee member, there are still plenty of opportunities throughout the academic year to work alongside the Committee or to attend PTFA events, and we would be delighted to welcome you as an active 'Friend' at any of our events.

GOLD CARD CLUB

The King's Gold Card Club scheme is a monthly cash prize draw that helps support the work of the King's PTFA, which in turn supports the school in various projects. The Gold Draw is open to anyone over the age of 18, not just parents/carers – so grandparents, aunts, uncles, friends and former students are welcome to participate too - this is an easy way to make a difference to the school.

An annual payment of £10.00 entitles participants to be included in the ten monthly prize draws, which currently stand at £60.00, with two prize draws of £450.00 each year. Check out Gold Club Card details in the PTFA section of the school website and please remember to keep the PTFA updated on any change of address/bank details for use in case you are lucky enough to win!

SECOND-HAND SHOP FOR UNIFORM AND PE KIT

The PTFA manages the school's secondhand uniform and PE kit sales, and especially welcomes donations of King's School badged uniform and games kits. Items for CCF and football / rugby boots are also welcomed. Currently we do not need trousers or shirts. We have placed a yellow donation bin outside of W101 and W102 where the students can drop off clean bagged uniform donations.

To buy or donate, contact the PTFA via the email address, PTFA@kings.lincs.sch.uk.

KEEPING IN TOUCH

You can look up information on what is happening or get in touch with the PTFA via:

Facebook - @KingsPTFA

E-mail – PTFA@kings.lincs.sch.uk

We look forward to seeing you at one of the meetings or events and would like to thank you again for your support.

The Sixth Form

Ten students at The Kings School have been offered places at Oxford and Cambridge this year, exceeding expectations. The ten offers follow last year's students when five took up places in the summer at Oxbridge.

The students offered places are:

- Theophilus Flavin- University of Cambridge to study English
- Michael Grace - University of Cambridge to study Natural Sciences
- Pádraig Cunningham - University of Cambridge to study Natural Sciences
- George Taylor - University of Cambridge to study Engineering
- Oliver Marsh -University of Cambridge to study Natural Sciences
- Farzan Siraj - University of Cambridge to study Music
- Alexander Cant - University of Cambridge to study Natural Sciences
- Julian Huddart - University of Oxford to study Physics
- Thomas Sefton - University of Oxford to study History
- Finlay Jones - University of Oxford to study History and French

PREPARING FOR OXFORD AND CAMBRIDGE

Students travelled to Christ's College, Cambridge, to gain an insight into the Oxbridge application process. Students were welcomed by Ellie Wood, Admissions & Outreach Officer, who emphasised the importance of the super-curricular and directed the students to a wealth of resources to extend their research. Students were hosted to lunch, met current students and were guided on tours around Christ's College, Clare College and Sidney Sussex College. The super-curricular presentation has been shared with all form tutors from Years 10-12.

Next term, students will be travelling to Brasenose, Oxford, to experience a similar day with a focus on applications specifically to Oxford.

THE UNIVERSITIES AND COLLEGES ADMISSIONS SERVICE (UCAS)

A record one hundred and forty-one students have made university applications through UCAS this year. Each student makes five different applications at this stage before refining their application to one Firm Choice and one Insurance Choice after their mock exams. At the time of writing, 494 offers have been made to students, with 261 offers from the Russell Group. Several students are also exploring Higher-Degree Apprenticeships, and we look forward to sharing their successes in future newsletters.

STUDENT LOANS

We were delighted to welcome Ahmar Ehsan, Funding Information Services Account Manager from the Student Loans Company, who shared the intricacies of making a university student loan application. Students were informed about the Maintenance Loan and Tuition Loans as well as the need to research wisely to seek out the many pots of money available at all universities. Ahmar kindly stayed in school to present to parents in the evening.

CAREERS CONVERSATIONS

Tillotts Pharma UK returned for their second visit to the school to talk to the students about the advantages of gaining a degree and where this could lead them in life after university. The interactive talk enabled students to think about the pharmaceutical industry and the different layers of opportunities available. The students learned that alongside the sales and market access, there are also excellent opportunities within the supply chain, marketing and brand management, regulatory and quality assurance, research and development, corporate finance, medical affairs, and information and business development. Once key skills and experience are gained, this could then lead to opportunities abroad or with larger companies. It is a competitive industry and very rewarding. It certainly gave the students lots to think about and to look further at Companies and their different layers within the organisations.

We have also been delighted to welcome South Kesteven Council representative Justin Brown, who spoke to students about opportunities from leaving School and apprenticeships to gaining employment after university.

SWIMARATHON

37 Sixth Form students filled the swimming pool and supported the Rotary Club Swimarathon. The Swimarathon has been running for a number of years, but this year was groundbreaking as the Rotary organisation has now raised over 1 million pounds, passing this incredible landmark this year. The group worked extremely hard and supported each other to maintain their non-stop lengths for 60 minutes and added over £800 to this fantastic cause.

Mr Whales - Assistant Headteacher

Departmental News

PHYSICS

Y7 Ogden Trust Science Quiz:

Year 7 students participated in the Science quiz as part of the Ogden Trust and in conjunction with other schools around Grantham. Demonstrating their amazing knowledge of physics, the top scorers in the quiz achieved full marks! The deciding factor was what they said they would ask any scientist of their choice. We had some very interesting answers, the best of which were: Leonardo da Vinci - 'I would ask him if the present is as he envisioned it would be. What does he find most strange?', Isambard Kingdom Brunel - 'Why did you build what you did?', Thomas Edison - 'What would he invent with all the new technology available today. Also if there were any inventions that he had never completed, but would have liked to continue to develop?'

Congratulations to the following students: Eric Newton, 7M, and Henry Davies, 7C, they have received Science Museum prizes for their winning entries.

Thank you to all of you who took part, you have earned a certificate and a prize as well as house points for your house.

Miss Jones - Head of Physics

HISTORY

On 17 January, four of our students took part in the Historical Association's Great Debate competition, held at the University of Lincoln.

Together with students from William Farr School, Welton; Sir John Nelthorpe School, Brigg; Sir Robert Pattinson Academy,

North Hykeham; Carres Grammar School, Sleaford; Queen Elizabeth's High School, Gainsborough and Franklin Sixth Form College, Grimsby.

The afternoon began with a lecture by resident historian, Dr Tom Bishop on 'The Cold War: Civil Defence and Nuclear Survival'. There were 24 competitors asked to write and deliver

speeches about the local person or place they believed deserved the greatest recognition. The competition aimed to encourage students to explore some of the lesser-known stories from their local area.

In a fantastic performance, Max Lygo told the story of Elizabeth Cass, a woman born in Grantham during the 19th century, who faced discrimination based on identity; Hayden Rowley argued convincingly that Nicola de la Haie, guardian of Lincoln Castle and Sheriff of Lincoln deserves to have her story widely known; Ollie King told the inspiring but little known story of Michael Foale, an astronaut from Louth and argued that knowledge of his life provides valuable lessons for us today. Finally, a chance meeting inspired Ben Rogerson to research the life of Alan Arnold Griffith, the engineer behind vertical take-off and landing technology.

All of our students delivered impressive speeches on their chosen individuals.

LEEDS ARMOURIES

On 01 February, Y12 historians visited the Royal Armouries Museum in Leeds to support their study of the British Empire at A Level.

They had a go at curating their own museum display, ensuring indigenous experiences were included alongside British. They were also able to handle artefacts from the Zulu War, Indian

Departmental News

Rebellion and WW1. We finished the day with a tour of the galleries and the opportunity to watch a sword-fighting display. Sharp-eyed students even found a photo from the Machine Gun Training Corps near Grantham during WW1. A fantastic day!

Mrs McKenna - Head of History

WORLD VIRTUAL TABLE TENNIS

Joe Marlor (13M) won the bronze medal at The European Virtual Table Tennis Challenge.

He was also very fortunate in that he was invited into the commentary box. He did such a good job, talking confidently and knowledgeably, that he continued for over an hour.

Joe is an incredible table tennis talent both in the virtual and the real world.

ART

The Year 8 students have been working hard on a portrait-based Art textiles project. The art team, this term, judged Ben Lucas 8C to have achieved the best example with his piece featuring embellishments with beads, buttons and a range of embroidery techniques including applique, couching and creative stitching layered on top of a fabric paint base.

Mrs Warley - Head of Art

Alumni

Congratulations to former student Tobias Whinney who refereed his first international rugby match.

Having started refereeing at King's, Tobias, refereed his international debut between Albania and Kosovo on 14th January 2024.

Tobias said "This was a surreal experience, unlike any other on the rugby pitch in a beautiful setting."

Tobias is also refereeing at the Bangkok International Rugby Sevens tournament this month.

Debating

OXFORD SCHOOLS' DEBATING COMPETITION

Year 12 students Evan Garg, Ollie King, Noah Koro and Max Lygo along with year 13 students Alex Cant, Michael Grace, Tashan Mpundu and Tom Sefton entered the Oxford Schools' Debating Competition on Thursday 25th January. There were 47 teams taking part over Zoom and we enjoyed an evening of robust and scintillating discussion.

The teams debated two motions in the style of British Parliamentary debating:

- This House would implement blind voting for general elections in liberal democracies; and
- This House suggests pursuing the goal of energy self-sufficiency.

After having commandeered the bottom floor of the tower block, we got to debating our two motions. The first motion discussed "blind voting", in which people vote for policies and are then assigned a best-fit candidate based on those policies. The second motion was about encouraging energy self-sufficiency in countries. We had to adopt completely different positions in both debates, although in one debate two of our teams went head-to-head against each other! The judges did not call the debates (i.e. determine a specific winner) but rather marked us on our speaking and thinking skills, and our ability to react quickly to points raised by the opposing teams. The night was a very interesting experience, and the dynamic nature of debating made it exciting for all!

Much was learned about debating and about the topics involved, and we look forward to sending some teams to Cambridge's equivalent competition in March!

Noah Koro – Year 12 Student

Year 12 students Evan Garg, Ollie King and Max Lygo won their round two heat of the English Speaking Union MACE Schools' Debating Competition.

The competition was held at Stamford School on the 24th of January. Six teams took part in the competition. The regional final will be held on the 7th of March.

Our motion was 'This House would grant all prisoners the right to vote.'

As part of the team, Noah Koro and Charlie Hatchman helped with speech writing and asked questions as members of the audience.

What a fun competition MACE was! After our victory in the first round online, moods were high going

into round 2. Our motion was “this house would give all prisoners the right to vote” and we were the proposition, agreeing with the motion. We did a lot of last minute preparation but we were excited nonetheless. Round 2 was held at Stamford School. They provided a relaxed venue with amazing canapes which eased our nerves.

We were the first debate (Evan the first speaker, Ollie the second speaker, and me the summary speaker), and coming out of it we were very excited. Although at some points the debate felt difficult, the amount of positive criticism we received from our team and even the other teams gave us more confidence! As the summary speaker, people were very fond of my speech which was an exciting prospect. After two more eloquent and rather evenly matched debates, some great questions asked by our team member Noah Koro (and in my case, four oat milk lattes), we all went out and socialized with the other teams.

As much as the socialising was fun though, my main focus was results. Only 3/6 teams made it through to the next round. It was tense, but we made it through! Everyone (especially our trainer Liz) was incredibly excited, and we were showered with compliments and glowing comments! We asked for individual feedback too from the judges, all of which was educational and a nice ego boost. So, we’re off to the Regional Finals on the 7th of March and hopefully grand finals!

Max Lygo – Year 12 Student

KING’S AND KGGS INTER-SCHOOL DEBATING

Our next meeting will be at KGGS on a date to be decided in March and will run from 4pm to 5:30pm. Further details to follow.

Well done to the 100+ students from both schools that attended the event on Monday 29th January at King’s. The evening was a great success consisting of lively and constructive debate on the motions mentioned below.

- Given the current global situation and defence funding cuts since the end of the Cold War, is it time to look carefully at conscription? Discuss.
- Saudi Arabia is the only country bidding for the 2034 World Cup. Do you agree with accusations of “sports-washing” directed at the Kingdom which deflect attention away from corruption and human rights abuses? Should Saudi Arabia be given the WC?
- Labour Leader Sir Keir Starmer has said there are “grounds for changing the law” on assisted dying. Do you agree?
- The Police should carry guns. Discuss.

We ask all students to respect the opinions of others and to listen in a mature and respectful manner.

KING’S DEBATING SOCIETY

We have a thriving debating community consisting of a year 10 and 11 group run by our 6th form competitive debaters and a KS5 Discussion Group run by Mrs Cunningham. If you are interested in being part of this growing activity at the King’s School, then do get in touch.

Mrs Cunningham - Teacher of RE

It has been a very busy half term for sport, with several notable performances across a wide range of spots.

FOOTBALL

This has been a busy half-term for football fixtures. Year 8 have been in action twice, once against DRET Academy All-Stars, when they unfortunately lost 6-0. They also went out of the County Cup, losing 6-3 against King Edward VI Grammar School.

Year 9 lost in their county cup match, their first-ever defeat, losing out to a well-drilled William Farr team 2-1 in a very close match.

Year 10 have also seen action in the County Cup, against Bourne Academy. Despite going 2 goals down, the team showed excellent perseverance and stuck to the principles we wanted to play with to run out 6-2 winners. Goals came from Henry Thomas (3), Louis Cardy (2) and Max Nowak.

The Year 11 team started their county cup campaign after their excellent run in the National Cup earlier this year. They recorded a 4-3 victory against Priory LSST in a very competitive match. Goals were scored by Prince Baker (2), Veroshan Athavan and Ted Robson. We wish the team well in the next round.

In the Sixth Form, the weather has impacted the senior fixture list, but both teams have been in action.

The 1st XI have played 3 matches this half term and have found things tough going. They had two close games vs Boston in the league and the cup, on the wrong side of a 3-2 scoreline on both occasions. They also lost 2-0 against Priory Ruskin, albeit with a heavily depleted squad; we congratulate the four 2nd XI players making their debut for the 1st XI who stepped in at short notice to ensure this match could go ahead.

The 2nd XI went out of their cup in the first round, narrowly losing 1-0 to Boston Grammar School. They were also defeated 1-0 by Spalding Grammar School.

BASKETBALL

The U16 basketball team remain undefeated this year, having beaten Spalding Grammar 18-16 in a very tense contest. Veroshan Athavan scored the winning points with a free throw late in the match. The U16 team have one more match to play, and victory would see them go through to the next round of this competition.

The U18 squad found Spalding Grammar a challenging opponent, losing 22-43. Josh Clee was the high scorer for King's with 15 points.

BADMINTON

On Wednesday, 24 January, the Lincolnshire County Badminton Championships were held at The Meres Leisure Centre. Both the Key Stage 3 and Key Stage 4 teams performed well throughout the event, losing only one match each throughout the day. This meant that both teams contested the 3rd/4th place match. Following two tight games against Bourne Grammar (KS3) and Priory LSST (KS4), both teams were awarded 3rd place. Congratulations to Vidhur Bolla, Jasper Streat, Jeremy Chan and Thomas Huguenin (KS3 Team) and also to Will King, Disula Loku Liyanage, Nathan John and Ethan Dachtler (KS4 Team).

CROSS COUNTRY

On Saturday, 13 January, several King's boys made the trip to Burley House for the county round of the Cross Country Championships. From this event, the following boys have qualified to represent Lincolnshire in the Anglian cross country event on 3 February: Jasper Adamson (2nd in senior race), Archie Bradbury (8th in senior race) and Joseph Monk (10th in senior race). Congratulations to those boys and everyone who represented the school at this event.

On Saturday 3rd February the senior runners competed in the Anglian round of the cross country. Both Archie Bradbury and Jasper Adamson have successfully qualified for the Nationals in March. This is a fantastic achievement, and we congratulate both boys for their efforts.

GYMNASTICS

Sam Corah of Year 7 has successfully qualified for the National Finals of the intermediate-grade trampoline competition. We congratulate him on his efforts thus far and wish him all the best for the finals to be held on 16 March.

On Saturday, the 3rd Feb, King's U19 team competed in the East Midlands Floor and Vault Competition. The team performed exceptionally well and finished in 1st place in the team competition. They also recorded some excellent individual results. The full scores are summarised below:

No	Name	Floor	Vault	Total	Position
139	Ben Szekeley	15.20	15.90	31.10	1
140	Zak Walker	14.80	15.80	30.60	3
141	Leo Smith	15.40	15.30	30.70	2
142	Eugene Cheung	14.40	14.70	29.10	7
					Position
	Team Total	59.80	61.70	121.50	1

SOCS

After half term, the Rugby 7s season will commence, and boys should sign up on SOCS should they wish to go to the training sessions for this sport. It is also an opportunity to sign up for any other sporting activities for the next half term. The signup window will be 'live' from Monday, 5 February, and will remain open until the end of the first week after half term.

.Mr Hulme - Head of Physical Education

Combined Cadet Force

Dear Students, Parents and Carers,

Although only a short time since my last update the Contingent has been training ready for two forthcoming Competitions.

The Army Section's training has been gathering pace for the Brigade Combat Cadet Competition. Fourteen schools have been selected to compete against each other, and King's School CCF made the cut and therefore join the Competition.

The RAF Section too are preparing for the National CCF RAF Competition, having come third in the Regional RAF CCF Competition; gaining automatic selection. Training is now in the forefront of our evening activities.

The Contingent also will have cadets away next month undertaking specialised leadership courses ready for being hopefully the leaders for the 2024/2025 cadet year.

We have three cadets on the Army's SCIC Course with one in a reserve position, this will hopefully lead on to them being selected for the Frimley Park Master Cadets course.

Four cadets from the RAF Section will be undertaking their Bronze Leadership course at RAF Cranwell. Flight Lieutenant Barton is instructing on the course.

We have recently bought two flying simulators. These as we speak are being set up, ready for intensive training for cadets prior to their flying experiences at RAF Cranwell and Syerston. On that note we have four places for Gliding practical skills to be learnt at RAF Syerston next month.

Official notification has been received that 7 of our instructors have qualified for the King Charles Coronation Medal.

3 level 2 BTEC Diplomas in Teamwork and Leadership have been completed, by our senior cadets, with more in the pipeline and we await further results and certificates.

We have had a busy couple of months, intensive class room work has been the order of our parade nights. The testing day will be at Stoke Rochford, where we will see if knowledge has been assimilated.

R M Ogg BEM

Lt Col CCF

Contingent Commander.

Sports Science

A sport and exercise science degree opens up career opportunities throughout the sports industry, working with athletes, children or the general public.

Jobs related directly to your degree include:

- Exercise physiologist
- Fitness centre manager
- Personal trainer
- Primary school teacher
- Secondary school teacher
- Sports administrator
- Sports coach
- Sports development officer
- Sports therapist.

Jobs where your degree would be useful include:

- Choreographer
- Clinical scientist, cardiac sciences
- Health improvement practitioner
- Higher education lecturer
- Nutritionist
- Outdoor activities/education manager
- Sport and exercise psychologist

Work experience

Look for opportunities that match the career you would like to go into. Try youth sport volunteering if you are interested in coaching or get work experience in a school if you would like to teach PE. Part-time work in a leisure centre is helpful, either in the admin and

marketing side, or in fitness instruction and pool attendant work. You can also gain great experience working in the sports section of a children's summer holiday scheme, in health promotion with local communities or in outdoor pursuit activities. Your degree may include a year in industry. Use that opportunity to try out your preferred career area and to establish a useful network of contacts for after your graduation.

Typical employers

Jobs are available with a range of organisations in the public, private and not-for-profit sectors, including:

- professional sports clubs
- national sporting associations, governing bodies and other related sporting agencies
- private health and fitness clubs, spas and public sports and recreation facilities
- local authorities
- schools, further education and higher education institutions
- the health sector, including the NHS.

You may eventually set up your own business or consultancy or choose to enter a career not directly related to sport, such as finance or management.

Transferrable Skills

A degree in sport and exercise science gives you an understanding of sports performance and the factors that affect behaviour in sport. You gain subject-specific knowledge in areas such as physiology, psychology, biochemistry,

biomechanics and nutrition.

You will also develop a set of core skills including:

- research and data analysis
- the ability to work on your own initiative and as part of a team
- presentation and oral communication skills
- written communication skills, including report writing
- time management and planning
- effective problem solving
- professionalism and customer focus
- a good understanding of information technology.

Further study

Some sport-related careers require further study at postgraduate level. For example, if you want to become a sport and exercise psychologist you will need to complete relevant accredited psychology qualifications. To get a job as a sports coach, you will need to gain the appropriate coaching qualification that is offered by the national governing body of your chosen sport.

If you want to become a PE teacher, you can go on to complete a postgraduate teaching qualification. A Masters or PhD may open you

up other teaching and research opportunities in higher education.

You could also go on to study a different subject area, such as journalism to become a sports journalist, law to advise about employment legalities and contracts for sports professionals, or marketing to carry out marketing activities for a sports venue.

It is also possible to specialise at Masters level to increase your knowledge in a particular area of interest, such as sport biomechanics or musculoskeletal sport science.
