2. The total smoking ban applies to the whole Academy community including pupils, employees, volunteers, Parents, visitors, members of the public and others working in or using the Academy's premises or vehicles and in the circumstances set out in paragraph 2 of this policy.

8. Prohibitions on smoking, alcohol, drugs and substances

1. Pupils are forbidden from:
 1. smoking inside or outside Academy premises, being in possession of tobacco nicotine and nicotine substitutes, e-liquids, electronic cigarettes, cig-a-likes and/or vaporising devices while in the care of the Academy or supplying any such products to other pupils;
 2. bringing alcohol onto Academy premises or being in possession of alcohol without prior consent or obtaining or supplying alcohol to another, or being impaired by alcohol while on Academy premises or in the care of the Academy;
 3. any production, possession, use or supply of drugs and substances;
 4. bringing the Academy into disrepute for any reason associated with tobacco, alcohol or drugs and substances, whether or not the pupil is in the care of the Academy at the time.

2. Parents

1. If a Parent attending Academy premises appears to be under the influence of alcohol, drugs or substances, they will be asked to leave and the member of staff making the request should refer the matter to the Academy's DSL.
2. If a member of staff suspects that a Parent has driven or will drive whilst under the influence of alcohol, drugs or substances, the member of staff should report the matter to the DSL or a member of the senior management team who may telephone the police.
3. If the DSL reasonably believes that a child is at immediate risk of harm from a Parent who is under the influence of alcohol, drugs or substances, the child will not be released into the care of the Parent and the Academy's child protection procedures will be followed.

9. Education and instruction

1. The education of pupils about alcohol, tobacco, drugs and substances and their dangers forms part of the Academy's programme of relationships and sex education (RSE) and health education / personal, social and health education (PSHE) and within the framework of the overall pastoral care policy. It includes classroom teaching, group discussions and talks by experts from outside the Academy.
2. The Academy educates pupils to understand:
 1. the effect and risks associated with alcohol, tobacco and drugs in relation to their health and well-being and the law; and

2. possible criminal offences relating to their use.
3. All members of staff receive training about alcohol, tobacco, drugs and substances so that they are alert to the warning signs of drug misuse and can respond appropriately when pupils seek advice or assistance.
4. The Academy is alert to the potential need for early help for a child who misuses drugs or alcohol. A member of staff who has any concern about a pupil's welfare or considers that a pupil may benefit from early help, should report this to the DSL in accordance with the Academy's Safeguarding and Child Protection policy and procedures.

10. Advice and assistance

1. Pupils are encouraged to discuss their anxieties about their own or others' use of alcohol, tobacco, drugs and substances in confidence with a member of staff or another responsible adult. They will be offered support within the Academy and can also have access to information about outside agencies able to provide advice, support and assistance. Accredited counselling services can generally be recommended by the Academy to a pupil in appropriate circumstances, after consultation with their parents.
2. Parents themselves are asked to inform the Deputy Head Master (Pastoral) if they have any reason to think that their child may have been involved with alcohol, tobacco, drugs and substances, so that suitable advice, support and assistance can be given. If a parent reports their child as a user of nicotine, alcohol, drugs or substances or a pupil themselves does so and asks for help, the pupil is likely to be given at least one opportunity to reform their behaviour with appropriate support.
3. Taking disciplinary action under this policy and providing appropriate support are not mutually exclusive actions. The Academy will have regard to the individual circumstances of each child and each case when considering the appropriate response to a breach of the rules set out in this policy, and will also consider proportionality, consistency and fairness.
4. However, each case will be given careful consideration in light of its individual circumstances and support will always be offered and the Head Master will consider appropriate strategies to help the pupil understand the behaviour expectations of the Academy and how to comply with them.
5. The Head will make a decision as to whether or not the Academy's disciplinary procedure is to be followed or whether or not to request that the pupil agrees to engage with a formal programme which may include: counselling, education and testing.

11. Child protection and risk assessment

1. The Academy will consider whether a breach of this policy gives cause to suspect that a pupil is suffering, or is likely to suffer harm. Where this is the case, the member of staff should report this to the DSL in accordance with the Academy's Safeguarding policy and child protection policy and procedures] who will in turn consider an early help intervention or a referral to Children's Social Care.

2. Where concern about a pupil's welfare is identified, the risks to that pupil's welfare will be assessed and appropriate action will be taken to reduce the risks identified.
3. The format of risk assessment may vary and may be included as part of the Academy's overall response to a welfare issue, including the use of individual pupil welfare plans (such as behaviour, healthcare and education plans, as appropriate) or its usual safeguarding information system. Regardless of the form used, the Academy's approach to promoting pupil welfare will be systematic and pupil focused and that any measures put in place are regularly reviewed.
4. The Head Master has overall responsibility for ensuring that matters which affect pupil welfare are adequately risk assessed and for ensuring that the relevant findings are implemented, monitored and evaluated.
5. Day to day responsibility to carry out risk assessments under this policy will be delegated to The Deputy Head Master (Pastoral), Assistant Headteachers and Heads of Year who have/has been properly trained in, and tasked with, carrying out the particular assessment.

12. Investigation

1. Every complaint, allegation or rumour or observation of pupil behaviour in relation to tobacco or alcohol or involvement with drugs and substances will be followed up and investigated in accordance with this policy and the procedures set out in the Academy's Behaviour and Discipline Policy.
2. If the findings of the investigation support the allegation, complaint or rumour or observation of pupil behaviour, a disciplinary meeting will usually be held, in accordance with the procedures set out in the Academy's Behaviour and Discipline Policy.

13. Searches for tobacco, alcohol, drugs and substances

1. Academy staff can search a pupil for tobacco, alcohol, drugs or substances if they agree. The member of staff should ensure the pupil understands the reason for the search and how it will be conducted so that their agreement is informed.
2. When exercising their powers consideration will be given to the age and need of the pupil being searched, including the individual needs or learning difficulties of pupils with Special Educational Needs (SEN) and making reasonable adjustments that may be required where a pupil has a disability.
3. If a pupil refuses to co-operate with a search, school staff should assess whether it is appropriate to use reasonable force to conduct a search without their co-operation and in accordance with the Academy's policy on searching and confiscation (see the procedures set out in Academy's Behaviour and discipline policy) and/or to consider disciplinary action as a consequence.

14. Testing

1. A pupil suspected of unauthorised consumption of alcohol or involvement with drugs or substances may be asked to give a biological sample. The reason for this policy is to:

1. deter breaches of Academy discipline;
 2. identify users;
 3. absolve those who have been wrongly suspected.
2. Alcohol - See Appendix 1 for details of the testing procedure for alcohol.
 3. Drugs and substances - See Appendix 2 for details of the testing procedure for drugs and substances.
1. Although tests are not infallible, the Academy will treat a positive test as evidence that the pupil is likely to have consumed alcohol or been using drugs or substances, as appropriate.

15. Consent to testing

1. The relevant consent to a test is that of the pupil rather than the Parent(s) providing that they are of sufficient maturity and understanding and gives their informed consent in writing. Where the pupil is not deemed to have sufficient maturity or understanding or to be fit to give informed consent themselves, then consent will be sought from a parent.
2. The member of staff leading the investigation will determine whether or not the pupil is able to provide this consent and may request the additional opinion of a medically qualified member of staff.
3. If a pupil refuses to provide a biological sample they will be asked to say why they have refused. Where the pupil is of sufficient maturity, the Academy will be entitled to draw inferences from their response and general demeanour. If a Parent's consent is required and they refuse to consent to their child providing a biological sample, the Academy may only draw inferences from the pupil's general demeanour.
4. Reasonable endeavours will be made, before a biological sample is taken, to notify a Parent guardian or education guardian of the requirement for a biological sample and the reasons for that requirement.

16. Police involvement

1. The Academy must notify the police and / or relevant agencies of actual or alleged criminal activity.
2. If the Academy suspects that a criminal offence has taken place in relation to the possession, use or supply of alcohol, drugs or substances, then consideration will be given to reporting this to the police and the relevant local authority.
3. The DSL will take a lead role in all cases where a pupil is detained and questioned by the Police, to ensure that the pupil is supported by an appropriate adult in line with PACE Code C (Code of Practice for the detention, treatment and questioning of persons by Police Officers). The role of the appropriate adult is to:
 1. support, advise and assist the pupil when they are given or asked to provide information or participate in any procedure;

2. observe whether the police are acting properly and fairly to respect the pupil's rights and entitlements, and inform an officer of the rank of inspector or above if they consider that they are not;
 3. assist the pupil to communicate with the police whilst respecting their right to say nothing unless they want to; and
 4. help them to understand their rights and ensure that those rights are protected and respected.
4. If the police suspect that a pupil possesses or has stored drugs, substances or related paraphernalia, they may elect to investigate using their own procedures or may pass the matter back to the Academy to investigate.
 5. If the Academy seizes a controlled drug, this will usually be delivered to the police as soon as possible. In exceptional circumstances and at the discretion of the Head Master or authorised member of staff, the drugs may be destroyed without the involvement of the police if there is good reason to do so. All relevant circumstances will be taken into account and staff will use professional judgement to determine whether the items can be safely disposed of. They will not be returned to the pupil.¹
 6. Other substances considered to be harmful or detrimental to good order and discipline will be confiscated. A senior member of staff will take account of all relevant circumstances and use their professional judgement to determine whether they can safely dispose of the seized substance.²
 7. The Academy will retain, dispose or destroy tobacco, alcohol, smoking equipment.³

17. Sanctions

1. Where a pupil breaches any of the prohibitions set out in this policy, the Proprietor has authorised the Head Master to apply any sanction which is appropriate and proportionate to the breach in accordance with the Academy's Behaviour and Discipline Policy. In addition consideration will be given to appropriate support for the pupil as disciplinary action and supportive measures will not be mutually exclusive.
2. The following guidelines will apply:
 1. **Tobacco and alcohol:** Sanctions will be applied in accordance with the Academy's Behaviour and Discipline Policy. For a serious breach or persistent breaches, a pupil may be subject to a suspension or permanent exclusion from the Academy.

¹ In accordance with the law and recommendations set out in Searching, screening and confiscation: advice for schools (DfE, January 2018) and DfE Drugs advice for schools (September 2012)

² In accordance with the law and recommendations set out in Searching, screening and confiscation: advice for schools (DfE, January 2018)

³ In accordance with the law and recommendations set out in Searching, screening and confiscation: advice for schools (DfE, January 2018)

2. **Drugs:** Sanctions will be applied in accordance with the Academy's Behaviour and Discipline Policy. Suspension or permanent exclusion will not be the automatic response to a drug incident, but may be considered in serious cases, taking into account the needs of the individual pupil concerned.⁴

18. Training

1. The Academy ensures that regular guidance and training is arranged on induction and at regular intervals thereafter so that staff and volunteers are alert to the warning signs of smoking, alcohol or drug misuse, understand what is expected of them by this policy and have the necessary knowledge and skills to carry out their roles and respond appropriately when pupils seek advice or assistance.
2. The Academy will ensure that a sufficient number of staff are appropriately trained in how to lawfully and safely search a pupil who is not co-operating, so that these trained staff can support and advise other members of staff if this situation arises.
3. The level and frequency of training depends on role of the individual member of staff.
4. The Academy maintains written records of all staff training.

19. Record keeping

1. All records created in accordance with this policy are managed in accordance with the Academy's policies that apply to the retention and destruction of records.
2. Sensitive personal information about pupils is disclosed only on a "need to know" basis with careful attention to pupils' rights and needs.
3. The records created in accordance with this policy may contain personal data. The Academy's use of this personal data will be in accordance with data protection law. The Academy has published privacy notices on its website which explain how the Academy will use personal data.

Date of adoption of this policy	December 2018
Date of last review of this policy	October 2022
Date for next review of this policy	October 2023

⁴ In accordance with the recommendations set out in [DfE and ACPO drug advice for schools \(DfE, June 2012\)](#) exclusion should not be the automatic response to a drug incident.

1. Testing for alcohol

Method of use: Only members of staff who have received training will be authorised to administer the breathalyser. In general, they will be members of the Senior Management Team.

Refusal: If a pupil refuses to provide a sample of breath the pupil may be asked to supply, under medical supervision, a further biological sample for analysis in accordance with the drug testing procedures (see Appendix 2).

Record: A written record will be kept when a pupil is asked to take a test and its outcome will be recorded.

Testing for drugs

1. **Biological sample:** If, outside the context of confidential counselling, there is reason to suspect that a pupil has been involved with drugs or substances, they may be asked to supply, under medical supervision, a biological sample (saliva, hair or urine) for analysis.

Medical supervision: The biological sample will be taken under medical supervision. A member of the Academy staff will be present. All due care will be taken to respect the pupil's privacy and human rights.

Testing procedures: These will be in accordance with standard good practice and where applicable the *Testing for substance misuse in schools* (June 2020) produced by the Medical Officers in Schools Association (**MOSA**):

care will be taken to make as certain as possible that the sample provided is genuine and uncontaminated;

the pupil will be asked to sign various seals and documents which confirm that the specimens are theirs;

the pupil will also be asked to sign a form which signifies that they are satisfied with the collection procedure and gives consent for the results of the test being made available to the Head Master.

Medical record: The outcome of the test, whether positive or negative, will not form part of the pupil's permanent medical record.

Outcome: When the Academy receives the laboratory report:

reasonable attempts will be made to notify a Parent by telephone;

if the result is negative, any second sample will be destroyed immediately;

if the result is positive, a second sample will be made available for independent analysis.
